July 1989

The Alberta Vital Statistics Annual Review is a summary of all vital events which occurred in Alberta during the 1988 calendar year as of March 1989.

The statistics presented in this Annual Review are compiled from the events registered in the Vital Statistics Information Terminal System. The Annual Review is produced primarily for the purpose of providing ready reference to some of the more frequently used vital statistics for Alberta. It has only a minimum of analysis and interpretation of the data.

I wish to recognize my staff for their excellent assistance in compiling this review.
